Role

We are looking for an experienced and talented UI/UX Designer to design and shape unique, user-centric products and experiences.

You'll work on challenging projects in various business sectors, using state of the art open source technologies and tools.

Here is an idea of what you will do :

- Translate business requirements into design specifications
- Define interaction models, user task flows, interactions and UI specifications
- Develop UI mockups and prototypes that clearly illustrate how apps function and look like
- Project management
- Support

Qualifications

- A Bachelor's degree or a strong working experience
- 2-5 years of experience as a UI/UX Designer, with portfolio
- Working knowledge of the following technologies and software: Sketch, InVision, Visio, HTML, CSS (SCSS), iOS, Android, Design Systems and Adobe Creative Suite.
- A good understanding of Web technologies
- An interest for the financial industry
- Agile and Scrum friendly

You offer

- The view on the latest technology trends, new functionality and market demands
- Fluent in English and French or English and German
- Detail focused, goal oriented, and well organized
- Good interpersonal skills with team members and customers
- Valid Working Permit in Switzerland
- Willingness to travel (Switzerland)

We offer

- Competitive salary
- Individualized career path and good compensation package
- The startup challenge

Location

Zurich or Geneva
